SUMMARY

I'm looking for work where I can display my passion for web development and grow to be better at programming. As a member of your company, I can assure you that I will be an asset to the company and will also deliver great results. I have in-depth knowledge of ABAP, JavaScript, JS frameworks, CSS, and HTML.

EDUCATION

Boot Camp Graduate, Uplift Code Camp

Full-Stack Development, March 2024

- Within the boot camp, we were exposed to full-stack development, allowing me to broaden my knowledge in web development. We were tasked to do projects and present it to the whole class.

Bachelor's Degree, University of Santo Tomas

BS Mechanical Engineering, June 2020

- In my stay at the university, I was exposed to complex problems, allowing me to enhance my critical-thinking and problem-solving skills.

WORK EXPERIENCE

SAP Development, Accenture Philippines

Associate Software Engineer, February 2023 – Present

- Develops and analyzes ABAP-related code in an OOP manner for a multinational Italian electric company in an Agile setting.
- Communicates with both functional and technical counterparts all over the world to ensure the client's needs are being met.

LICENSE AND CERTIFICATIONS

- Registered Mechanical Engineer
- Uplift Code Camp Full-Stack Boot Camp Graduate

PROJECTS

Pizza Store App

- Developed a website for a pizza shop using React and NodeJS
- Worked with fellow boot camp graduates and presented it to panelists

Google Personal Portfolio Page

- Developed a Google clone page with details about me and my projects

SKILLS

- MERN Stack, JavaScript, HTML, CSS, ABAP
- Oral and Written Communication in English, Filipino, Chinese (Hokkien and Basic Mandarin)
